

**Exercise 35**

In the following exercises, evaluate the following expressions.

When  $x = 10$ ,  $y = 7$

$$(x - y)^2$$

---

**Solution**

When  $x = 10$ ,  $y = 7$

$$\begin{aligned}(x - y)^2 &= (10 - 7)^2 \\ &= 3^2 \\ &= 9.\end{aligned}$$
