

## Exercise 60

For the following exercises, use the function values for  $f$  and  $g$  shown in Table 3 to evaluate each expression.

$x$	$f(x)$	$g(x)$
0	7	9
1	6	5
2	5	6
3	8	2
4	4	1
5	0	8
6	2	7
7	1	3
8	9	4
9	3	0

Table 3

$$g(f(5))$$

---

### Solution

Notice from the table that  $f(5) = 0$  and  $g(0) = 9$ . Therefore,

$$g(f(5)) = g(0) = 9.$$
